Notes and additional information:

- **Examination periods:** The examinations generally take place in the first and last week of the lecture period. In individual cases, e.g. in the context of repeat examinations, examinations may take place outside the specified periods.
- **Closing times:** Periods within the lecture periods during which the university is closed (in particular between Christmas and New Year) will be announced by the university.
- **End of the last semester of study:** Deviating from the lecture periods in the winter semester stated above, the seventh regular semester of study (winter semester) always ends on the last day of February. Example: For all 2024 first-year students, studies end on 29/02/2028, NOT on 09/04/2028.
